Re: Unisyn Voting Solutions ECO 2301 Submitted for Approval

Dear Chris Ortiz,

The EAC has reviewed Engineering Change Order ECO 2301, including supporting documentation and analysis provided by the voting system test lab. This minor change of an additional Dell Latitude 5540 laptop with EOS 5.0 does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The ECO impacts the following systems:

- OpenElect 2.1
- OpenElect 2.2
- OpenElect 2.2.3

This correspondence is to inform you that Unisyn Voting Solutions ECO 2301 is approved.

Sincerely,

Brooke Watters
Sr. Election Technology Specialist, U.S. Election Assistance Commission
