**Re: HART ECO-01575 Submitted for Approval**

Dear Ms. Geppert,

The EAC has reviewed Engineering Change Order (ECO) 01575, including supporting documentation and analysis provided by the voting system test lab. The minor change updating the SQL UI does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

This correspondence is to inform you that HART ECO-01575 is approved.

Sincerely,

---
