Re: MicroVote General Corp. ECN 138 Submitted for Approval

Dear Bernie Hirsch,

The EAC has reviewed Engineering Change Order ECO-ECN 138, including supporting documentation and analysis provided by the voting system test lab. This minor change to the dell laptop entering end-of-life with this ECO introducing the Dell Latitude 3540 laptop as a replacement, does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The ECO impacts the following systems:
MicroVote EMS 4.41

This correspondence is to inform you that MicroVote General Corp. ECO- ECN 138 is approved.

Sincerely,

Jonathan Le
Sr. Election Technology Specialist, U.S. Election Assistance Commission
