Re: Dominion Voting Systems Corp ECO 100982 Submitted for Approval

Dear Victor Vasquez

The EAC has reviewed Engineering Change Order **ECO 100982**, including supporting documentation and analysis provided by the voting system test lab. This minor change adding DELL P2424HT touch monitor as a display device for the ICC HiPro scanner workstation and the ICC Canon Workstation does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

All D-Suite system configurations that include the HiPro scanner workstation or the Canon scanner workstation.

This correspondence is to inform you that Dominion Voting Systems Corp **ECO 100982** is approved.

Sincerely,

Brooke Watters
Sr. Election Technology Specialist, U.S. Election Assistance Commission
