Omaha, Nebraska 68137

**Re: Election Systems & Software, Inc (ES&S) ECO-1174 Submitted for Approval**

Dear Sue McKay

The EAC has review Engineering Change Order **ECO-1174**, including supporting documentation and analysis provided by the voting system test lab. This minor change to the DS300 thermal report printer door to add a motor cradle bracket, which prevents the deformation of the thermal printer, does not alter the system's reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

EVS 6.4.0.0  
EVS 6.3.0.0

This correspondence is to inform you that Election Systems & Software, Inc (ES&S) **ECO-1174** is approved.

Sincerely,

---

Jonathan Le  
Sr. Election Technology Specialist, U.S. Election Assistance Commission
