**Re: Election Systems & Software, Inc (ES&S) ECO-1167 Submitted for Approval**

Dear Sue McKay,

The EAC has review Engineering Change Order **ECO-1167**, including supporting documentation and analysis provided by the voting system test lab. This ECO covers the addition of the semi-static file "C:\ProgramData\Electionwar(e)\install.log" to the EMS Standalone, Client, and Server configurations and validation file lists. These minor changes do not adversely impact the systems reliability, functionality, capability, or operation. Based on the information provided, it has been determined that no further testing is necessary.

The systems impacted by this ECO are:

- EVS 6.3.0.0

This correspondence is to inform you that Election Systems & Software, Inc (ES&S) **ECO-1167** is approved.

Sincerely,

---

Roger Piha-Paul  
Field Services Specialist, U.S. Election Assistance Commission
