Re: ECO 1153

Dear Ms. McKay,

This correspondence is to inform you that the EAC has reviewed Engineering Change Order (ECO) 1153, including supporting documentation and analysis provided by the voting system test laboratory, and are satisfied that this minor change to the system does not affect the system's reliability, functionality, capability, or operation. As a result, ES&S ECO 1153 is approved.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Aumayr".

Paul Aumayr
