ELECTION DEFINITION: Temp / Power

Test Deck Pattern:

The Test Deck will consist of 100 hand marked ballots for each precinct. The voting pattern will consist of a matrix pattern and three exception votes handled by the tabulators. The test decks will be voted X times rotating the orientation on each deck cycle. The 4 orientations will be cycled for the duration of the accuracy test.

Ballots 1-45: Undervote the straight party selection. Each candidate should have the number of ballots corresponding to their position on the ballot: 1st candidate-1 ballot, 2nd candidate-2 ballots, and 3rd candidate-3 ballots. Continue the pattern for all 9 candidates including write in. The last position should include 9 ballots with all write-ins selected. Vote "Yes" for each proposal on the 1st ballot; vote "No" for each proposal on the 2nd and 3rd ballots and vote Yes for each proposal on the remaining ballots 4-45.

Ballots 46-81: Vote Straight Party only. Each party should have the number of ballots corresponding to their position on the ballot: First party- 1 ballot, Second party - 2 ballots, Third party - 3 ballots and continue the pattern for all 8 parties.

Ballots 82-89: Undervote Straight Party contest, Partisan contests and both proposals. Only vote the Non-Partisan contests. Vote one ballot for each ballot position including write in for all Non-Partisan contests.

Ballots 90-98: Undervote Straight Party contest, Non-Partisan contests and both proposals. Only vote the Partisan contests. Vote one ballot for each ballot position including write in for all Partisan contests.

Ballots 99-100: Blank Ballots

Criteria For Evaluation of Test Results:

The results of this test will be accepted if the stated election definition can be input into the EMS, the election transferred to the voting machine, voted according to the test vote pattern, and the results reported and audited to match the expected results. During the execution of this election all errors need to be logged and analyzed by Wyle qualified personal to determine if the error is an actual error or another issue.

ELECTION DEFINITION: GEN-01

General Election: GEN-01

A basic election held in 4 precincts one of which is a split precinct. This election contains 19 contests compiled into 4 ballot styles. 5 of the contests are in all 4 ballot styles. The other 15 contests are split between at least 2 of the precincts with a maximum of 4 different contest spread across the 4 precincts. The voting variations supported by this election are as follows:

- Closed Primary: No
- Open Primary: No
- Partisan offices: Yes
- Non-Partisan offices: Yes
- Write-in voting: Yes
- Primary presidential delegation nominations: No
- Ballot Rotation: No
- Straight Party voting: Yes
- Cross-party endorsement: No
- Split Precincts: Yes
- Vote for N of M: Yes
- Recall issues, with options: No
- Cumulative voting: No
- Ranked order voting: No
- Provisional or challenged ballots: Yes
- Early Voting: No

This election was designed to functionally test the handling of multiple ballot styles, support for at least two languages, support for common voting variations, and audio support for at least two languages. Test Pattern 8 was chosen for audio input in an alternative language because it is a basic voting pattern using an ADA device. Test pattern 9 was chosen for audio input to demonstrate support for write-in voting using an ADA device. Test Pattern 3 was chosen for Spanish language input because it is a basic vote pattern using Spanish. Test Pattern 10 was chosen for Spanish language input because it exercises write-in using Spanish.
